'Which type of encryption should you use for each department? To answer, drag the appropriate encryption types to the correct departments. Each encryption type may be used

A. Mastered
B. Not Mastered

Answer: A

? Email messages sent from Dept2 to an external email domain should
use TLS encryption1. TLS is a protocol that encrypts the connection or session between two servers1. It protects email messages during transit only and does not require any action from the sender or recipient1. TLS provides opportunistic encryption and ensures message confidentiality and server authentication1.
? Email messages sent from Dept3 to an external email domain should
use Microsoft Purview Message Encryption2. Microsoft Purview Message Encryption is an online service that encrypts email messages and attachments using rights management policies2. It allows users to send encrypted email messages to anyone inside or outside the organization using various email services2. Microsoft Purview Message Encryption provides persistent encryption and ensures message confidentiality and authorization policies2.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.
