About ExamBible

[Your Partner of IT Exam](#)

Found in 1998

ExamBible is a company specialized on providing high quality IT exam practice study materials, especially Cisco CCNA, CCDA, CCNP, CCIE, Checkpoint CCSE, CompTIA A+, Network+ certification practice exams and so on. We guarantee that the candidates will not only pass any IT exam at the first attempt but also get profound understanding about the certificates they have got. There are so many alike companies in this industry, however, ExamBible has its unique advantages that other companies could not achieve.

Our Advances

* 99.9% Uptime

All examinations will be up to date.

* 24/7 Quality Support

We will provide service round the clock.

* 100% Pass Rate

Our guarantee that you will pass the exam.

* Unique Gurantee

If you do not pass the exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

NEW QUESTION 1

SCENARIO

Please use the following to answer the next question:

ABC Hotel Chain and XYZ Travel Agency are U.S.-based multinational companies. They use an internet-based common platform for collecting and sharing their customer data with each other, in order to integrate their marketing efforts. Additionally, they agree on the data to be stored, how reservations will be booked and confirmed, and who has access to the stored data.

Mike, an EU resident, has booked travel itineraries in the past through XYZ Travel Agency to stay at ABC Hotel Chain's locations. XYZ Travel Agency offers a rewards program that allows customers to sign up to accumulate points that can later be redeemed for free travel. Mike has signed the agreement to be a rewards program member.

Now Mike wants to know what personal information the company holds about him. He sends an email requesting access to his data, in order to exercise what he believes are his data subject rights.

What are ABC Hotel Chain and XYZ Travel Agency's roles in this relationship?

- A. ABC Hotel Chain is the controller and XYZ Travel Agency is the processor.
- B. XYZ Travel Agency is the controller and ABC Hotel Chain is the processor.
- C. ABC Hotel Chain and XYZ Travel Agency are independent controllers.
- D. ABC Hotel Chain and XYZ Travel Agency are joint controllers.

Answer: A

NEW QUESTION 2

Which of the following entities would most likely be exempt from complying with the GDPR?

- A. A South American company that regularly collects European customers' personal data.
- B. A company that stores all customer data in Australia and is headquartered in a European Union (EU) member state.
- C. A Chinese company that has opened a satellite office in a European Union (EU) member state to service European customers.
- D. A North American company servicing customers in South Africa that uses a cloud storage system made by a European company.

Answer: C

NEW QUESTION 3

An online company's privacy practices vary due to the fact that it offers a wide variety of services. How could it best address the concern that explaining them all would make the policies incomprehensible?

- A. Use a layered privacy notice on its website and in its email communications.
- B. Identify uses of data in a privacy notice mailed to the data subject.
- C. Provide only general information about its processing activities and offer a toll-free number for more information.
- D. Place a banner on its website stipulating that visitors agree to its privacy policy and terms of use by visiting the site.

Answer: B

NEW QUESTION 4

Which statement is correct when considering the right to privacy under Article 8 of the European Convention on Human Rights (ECHR)?

- A. The right to privacy is an absolute right
- B. The right to privacy has to be balanced against other rights under the ECHR
- C. The right to freedom of expression under Article 10 of the ECHR will always override the right to privacy
- D. The right to privacy protects the right to hold opinions and to receive and impart ideas without interference

Answer: B

NEW QUESTION 5

Data retention in the EU was underpinned by a legal framework established by the Data Retention Directive (2006/24/EC). Why is the Directive no longer part of EU law?

- A. The Directive was superseded by the EU Directive on Privacy and Electronic Communications.
- B. The Directive was superseded by the General Data Protection Regulation.
- C. The Directive was annulled by the Court of Justice of the European Union.
- D. The Directive was annulled by the European Court of Human Rights.

Answer: C

NEW QUESTION 6

To provide evidence of GDPR compliance, a company performs an internal audit. As a result, it finds a data base, password-protected, listing all the social network followers of the client.

Regarding the domain of the controller-processor relationships, how is this situation considered?

- A. Compliant with the security principle, because the data base is password-protected.
- B. Non-compliant, because the storage of the data exceeds the tasks contractually authorized by the controller.
- C. Not applicable, because the data base is password protected, and therefore is not at risk of identifying any data subject.
- D. Compliant with the storage limitation principle, so long as the internal auditor permanently deletes the data base.

Answer: B

NEW QUESTION 7

Which type of personal data does the GDPR define as a “special category” of personal data?

- A. Educational history.
- B. Trade-union membership.
- C. Closed Circuit Television (CCTV) footage.
- D. Financial information.

Answer: B

NEW QUESTION 8

SCENARIO

Please use the following to answer the next question:

Joe is the new privacy manager for Who-R-U, a Canadian business that provides DNA analysis. The company is headquartered in Montreal, and all of its employees are located there. The company offers its services to Canadians only: Its website is in English and French, it accepts only Canadian currency, and it blocks internet traffic from outside of Canada (although this solution doesn't prevent all non-Canadian traffic). It also declines to process orders that request the DNA report to be sent outside of Canada, and returns orders that show a non-Canadian return address.

Bob, the President of Who-R-U, thinks there is a lot of interest for the product in the EU, and the company is exploring a number of plans to expand its customer base.

The first plan, collegially called We-Track-U, will use an app to collect information about its current Canadian customer base. The expansion will allow its Canadian customers to use the app while traveling abroad. He suggests that the company use this app to gather location information. If the plan shows promise, Bob proposes to use push notifications and text messages to encourage existing customers to pre-register for an EU version of the service. Bob calls this work plan, We-Text-U. Once the company has gathered enough pre-registrations, it will develop EU-specific content and services.

Another plan is called Customer for Life. The idea is to offer additional services through the company's app, like storage and sharing of DNA information with other applications and medical providers. The company's contract says that it can keep customer DNA indefinitely, and use it to offer new services and market them to customers. It also says that customers agree not to withdraw direct marketing consent. Paul, the marketing director, suggests that the company should fully exploit these provisions, and that it can work around customers' attempts to withdraw consent because the contract invalidates them.

The final plan is to develop a brand presence in the EU. The company has already begun this process. It is in the process of purchasing the naming rights for a building in Germany, which would come with a few offices that Who-R-U executives can use while traveling internationally. The office doesn't include any technology or infrastructure; rather, it's simply a room with a desk and some chairs.

On a recent trip concerning the naming-rights deal, Bob's laptop is stolen. The laptop held unencrypted DNA reports on 5,000 Who-R-U customers, all of whom are residents of Canada. The reports include customer name, birthdate, ethnicity, racial background, names of relatives, gender, and occasionally health information.

If Who-R-U adopts the We-Track-U pilot plan, why is it likely to be subject to the territorial scope of the GDPR?

- A. Its plan would be in the context of the establishment of a controller in the Union.
- B. It would be offering goods or services to data subjects in the Union.
- C. It is engaging in commercial activities conducted in the Union.
- D. It is monitoring the behavior of data subjects in the Union.

Answer: D

NEW QUESTION 9

Under the GDPR, which of the following is true in regard to adequacy decisions involving cross-border transfers?

- A. The European Commission can adopt an adequacy decision for individual companies.
- B. The European Commission can adopt, repeal or amend an existing adequacy decision.
- C. EU member states are vested with the power to accept or reject a European Commission adequacy decision.
- D. To be considered as adequate, third countries must implement the EU General Data Protection Regulation into their national legislation.

Answer: A

NEW QUESTION 10

SCENARIO

Please use the following to answer the next question:

The fitness company Vigotron has recently developed a new app called M-Health, which it wants to market on its website as a free download. Vigotron's marketing manager asks his assistant Emily to create a webpage that describes the app and specifies the terms of use. Emily, who is new at Vigotron, is excited about this task. At her previous job she took a data protection class, and though the details are a little hazy, she recognizes that Vigotron is going to need to obtain user consent for use of the app in some cases. Emily sketches out the following draft, trying to cover as much as possible before sending it to Vigotron's legal department.

Registration Form

Vigotron's new M-Health app makes it easy for you to monitor a variety of health-related activities, including diet, exercise, and sleep patterns. M-Health relies on your smartphone settings (along with other third-party apps you may already have) to collect data about all of these important lifestyle elements, and provide the information necessary for you to enrich your quality of life. (Please click here to read a full description of the services that M-Health provides.)

Vigotron values your privacy. The M-Health app allows you to decide which information is stored in it, and which apps can access your data. When your device is locked with a passcode, all of your health and fitness data is encrypted with your passcode. You can back up data stored in the Health app to Vigotron's cloud provider, Stratculous. (Read more about Stratculous here.)

Vigotron will never trade, rent or sell personal information gathered from the M-Health app. Furthermore, we will not provide a customer's name, email address or any other information gathered from the app to any third-party without a customer's consent, unless ordered by a court, directed by a subpoena, or to enforce the manufacturer's legal rights or protect its business or property.

We are happy to offer the M-Health app free of charge. If you want to download and use it, we ask that you first complete this registration form. (Please note that use of the M-Health app is restricted to adults aged 16 or older, unless parental consent has been given to minors intending to use it.)

- > First name:
- > Surname:
- > Year of birth:
- > Email:
- > Physical Address (optional*):
- > Health status:

*If you are interested in receiving newsletters about our products and services that we think may be of interest to you, please include your physical address. If you decide later that you do not wish to receive these newsletters, you can unsubscribe by sending an email to unsubscribe@vigotron.com or send a letter with your request to the address listed at the bottom of this page.

Terms and Conditions 1.Jurisdiction. [...] 2.Applicable law. [...] 3.Limitation of liability. [...] Consent

By completing this registration form, you attest that you are at least 16 years of age, and that you consent to the processing of your personal data by Vigotron for the purpose of using the M-Health app. Although you are entitled to opt out of any advertising or marketing, you agree that Vigotron may contact you or provide you with any required notices, agreements, or other information concerning the services by email or other electronic means. You also agree that the Company may send automated emails with alerts regarding any problems with the M-Health app that may affect your well being.

If a user of the M-Health app were to decide to withdraw his consent, Vigotron would first be required to do what?

- A. Provide the user with logs of data collected through use of the app.
- B. Erase any data collected from the time the app was first used.
- C. Inform any third parties of the user's withdrawal of consent.
- D. Cease processing any data collected through use of the app.

Answer: D

NEW QUESTION 10

Which aspect of the GDPR will likely have the most impact on the consistent implementation of data protection laws throughout the European Union?

- A. That it essentially functions as a one-stop shop mechanism
- B. That it takes the form of a Regulation as opposed to a Directive
- C. That it makes notification of large-scale data breaches mandatory
- D. That it makes appointment of a data protection officer mandatory

Answer: D

NEW QUESTION 13

Article 9 of the GDPR lists exceptions to the general prohibition against processing biometric data. Which of the following is NOT one of these exceptions?

- A. The processing is done by a non-profit organization and the results are disclosed outside the organization.
- B. The processing is necessary to protect the vital interests of the data subject when he or she is incapable of giving consent.
- C. The processing is necessary for the establishment, exercise or defense of legal claims when courts are acting in a judicial capacity.
- D. The processing is explicitly consented to by the data subject and he or she is allowed by Union or Member State law to lift the prohibition.

Answer: A

NEW QUESTION 16

Article 58 of the GDPR describes the power of supervisory authorities. Which of the following is NOT among those granted?

- A. Legislative powers.
- B. Corrective powers.
- C. Investigatory powers.
- D. Authorization and advisory powers.

Answer: D

NEW QUESTION 20

SCENARIO

Please use the following to answer the next question:

BHealthy, a company based in Italy, is ready to launch a new line of natural products, with a focus on sunscreen. The last step prior to product launch is for BHealthy to conduct research to decide how extensively to market its new line of sunscreens across Europe. To do so, BHealthy teamed up with Natural Insight, a company specializing in determining pricing for natural products. BHealthy decided to share its existing customer information – name, location, and prior purchase history – with Natural Insight. Natural Insight intends to use this information to train its algorithm to help determine the price point at which BHealthy can sell its new sunscreens.

Prior to sharing its customer list, BHealthy conducted a review of Natural Insight's security practices and concluded that the company has sufficient security measures to protect the contact information. Additionally, BHealthy's data processing contractual terms with Natural Insight require continued implementation of technical and organization measures. Also indicated in the contract are restrictions on use of the data provided by BHealthy for any purpose beyond provision of the services, which include use of the data for continued improvement of Natural Insight's machine learning algorithms.

What is the nature of BHealthy and Natural Insight's relationship?

- A. Natural Insight is BHealthy's processor because the companies entered into data processing terms.
- B. Natural Insight is BHealthy's processor because BHealthy is sharing its customer information with Natural Insight.
- C. Natural Insight is the controller because it determines the security measures to implement to protect data it processes; BHealthy is a co-controller because it engaged Natural Insight to determine pricing for the new sunscreens.
- D. Natural Insight is a controller because it is separately determine the purpose of processing when it uses BHealthy's customer information to improve its machine learning algorithms.

Answer: A

NEW QUESTION 23

SCENARIO

Please use the following to answer the next question:

Sandy recently joined Market4U, an advertising technology company founded in 2016, as their VP of Privacy and Data Governance. Through her first initiative in conducting a data inventory, Sandy learned that Market4U maintains a list of 19 million global contacts that were collected throughout the course of Market4U's existence. Knowing the risk of having such a large amount of data, Sandy wanted to purge all contacts that were entered into Market4U's systems prior to May 2018, unless such contacts had a more recent interaction with Market4U content. However, Dan, the VP of Sales, informed Sandy that all of the contacts provide useful information regarding successful marketing campaigns and trends in industry verticals for Market4U's clients.

Dan also informed Sandy that he had wanted to focus on gaining more customers within the sports and entertainment industry. To assist with this behavior, Market4U's marketing team decided to add several new fields to Market4U's website forms, including forms for downloading white papers, creating accounts to participate in Market4U's forum, and attending events. Such fields include birth date and salary.

What is the best way that Sandy can gain the insights that Dan seeks while still minimizing risks for Market4U?

- A. Conduct analysis only on anonymized personal data.
- B. Conduct analysis only on pseudonymized personal data.
- C. Delete all data collected prior to May 2018 after conducting the trend analysis.
- D. Procure a third party to conduct the analysis and delete the data from Market4U's systems.

Answer: A

NEW QUESTION 26

SCENARIO

Please use the following to answer the next question:

Joe is the new privacy manager for Who-R-U, a Canadian business that provides DNA analysis. The company is headquartered in Montreal, and all of its employees are located there. The company offers its services to Canadians only: Its website is in English and French, it accepts only Canadian currency, and it blocks internet traffic from outside of Canada (although this solution doesn't prevent all non-Canadian traffic). It also declines to process orders that request the DNA report to be sent outside of Canada, and returns orders that show a non-Canadian return address.

Bob, the President of Who-R-U, thinks there is a lot of interest for the product in the EU, and the company is exploring a number of plans to expand its customer base.

The first plan, collegially called We-Track-U, will use an app to collect information about its current Canadian customer base. The expansion will allow its Canadian customers to use the app while traveling abroad. He suggests that the company use this app to gather location information. If the plan shows promise, Bob proposes to use push notifications and text messages to encourage existing customers to pre-register for an EU version of the service. Bob calls this work plan, We-Text-U. Once the company has gathered enough pre-registrations, it will develop EU-specific content and services.

Another plan is called Customer for Life. The idea is to offer additional services through the company's app, like storage and sharing of DNA information with other applications and medical providers. The company's contract says that it can keep customer DNA indefinitely, and use it to offer new services and market them to customers. It also says that customers agree not to withdraw direct marketing consent. Paul, the marketing director, suggests that the company should fully exploit these provisions, and that it can work around customers' attempts to withdraw consent because the contract invalidates them.

The final plan is to develop a brand presence in the EU. The company has already begun this process. It is in the process of purchasing the naming rights for a building in Germany, which would come with a few offices that Who-R-U executives can use while traveling internationally. The office doesn't include any technology or infrastructure; rather, it's simply a room with a desk and some chairs.

On a recent trip concerning the naming-rights deal, Bob's laptop is stolen. The laptop held unencrypted DNA reports on 5,000 Who-R-U customers, all of whom are residents of Canada. The reports include customer name, birthdate, ethnicity, racial background, names of relatives, gender, and occasionally health information.

If Who-R-U decides to track locations using its app, what must it do to comply with the GDPR?

- A. Get consent from the app users.
- B. Provide a transparent notice to users.
- C. Anonymize the data and add latency so it avoids disclosing real time locations.
- D. Obtain a court order because location data is a special category of personal data.

Answer: A

NEW QUESTION 31

A multinational company is appointing a mandatory data protection officer. In addition to considering the rules set out in Article 37 (1) of the GDPR, which of the following actions must the company also undertake to ensure compliance in all EU jurisdictions in which it operates?

- A. Consult national derogations to evaluate if there are additional cases to be considered in relation to the matter.
- B. Conduct a Data Protection Privacy Assessment on the processing operations of the company in all the countries it operates.
- C. Assess whether the company has more than 250 employees in each of the EU member-states in which it is established.
- D. Revise the data processing activities of the company that affect more than one jurisdiction to evaluate whether they comply with the principles of privacy by design and by default.

Answer: B

NEW QUESTION 35

Which of the following was the first legally binding international instrument in the area of data protection?

- A. Convention 108.
- B. General Data Protection Regulation.
- C. Universal Declaration of Human Rights.
- D. EU Directive on Privacy and Electronic Communications.

Answer: A

NEW QUESTION 40

SCENARIO

Please use the following to answer the next question:

T-Craze, a German-headquartered specialty t-shirt company, was successfully selling to large German metropolitan cities. However, after a recent merger with another German-based company that was selling to a broader European market, T-Craze revamped its marketing efforts to sell to a wider audience. These efforts included a complete redesign of its logo to reflect the recent merger, and improvements to its website meant to capture more information about visitors through the use of cookies.

T-Craze also opened various office locations throughout Europe to help expand its business. While Germany continued to host T-Craze's headquarters and main product-design office, its French affiliate became responsible for all marketing and sales activities. The French affiliate recently procured the services of Right Target, a renowned marketing firm based in the Philippines, to run its latest marketing campaign. After thorough research, Right Target determined that T-Craze is most successful with customers between the ages of 18 and 22. Thus, its first campaign targeted university students in several European capitals, which yielded nearly 40% new customers for T-Craze in one quarter. Right Target also ran subsequent campaigns for T-Craze, though with much less success.

The last two campaigns included a wider demographic group and resulted in countless unsubscribe requests, including a large number in Spain. In fact, the

Spanish data protection authority received a complaint from Sofia, a mid-career investment banker. Sofia was upset after receiving a marketing communication even after unsubscribing from such communications from the Right Target on behalf of T-Craze. Which of the following is T-Craze's lead supervisory authority?

- A. Germany, because that is where T-Craze is headquartered.
- B. France, because that is where T-Craze conducts processing of personal information.
- C. Spain, because that is T-Craze's primary market based on its marketing campaigns.
- D. T-Craze may choose its lead supervisory authority where any of its affiliates are based, because it has presence in several European countries.

Answer: C

NEW QUESTION 43

If a multi-national company wanted to conduct background checks on all current and potential employees, including those based in Europe, what key provision would the company have to follow?

- A. Background checks on employees could be performed only under prior notice to all employees.
- B. Background checks are only authorized with prior notice and express consent from all employees including those based in Europe.
- C. Background checks on European employees will stem from data protection and employment law, which can vary between member states.
- D. Background checks may not be allowed on European employees, but the company can create lists based on its legitimate interests, identifying individuals who are ineligible for employment.

Answer: C

NEW QUESTION 46

Assuming that the "without undue delay" provision is followed, what is the time limit for complying with a data access request?

- A. Within 40 days of receipt
- B. Within 40 days of receipt, which may be extended by up to 40 additional days
- C. Within one month of receipt, which may be extended by up to an additional month
- D. Within one month of receipt, which may be extended by an additional two months

Answer: C

NEW QUESTION 50

The European Parliament jointly exercises legislative and budgetary functions with which of the following?

- A. The European Commission.
- B. The Article 29 Working Party.
- C. The Council of the European Union.
- D. The European Data Protection Board.

Answer: C

NEW QUESTION 54

SCENARIO

Please use the following to answer the next question:

Liem, an online retailer known for its environmentally friendly shoes, has recently expanded its presence in Europe. Anxious to achieve market dominance, Liem teamed up with another eco friendly company, EcoMick, which sells accessories like belts and bags. Together the companies drew up a series of marketing campaigns designed to highlight the environmental and economic benefits of their products. After months of planning, Liem and EcoMick entered into a data sharing agreement to use the same marketing database, MarketIQ, to send the campaigns to their respective contacts.

Liem and EcoMick also entered into a data processing agreement with MarketIQ, the terms of which included processing personal data only upon Liem and EcoMick's instructions, and making available to them all information necessary to demonstrate compliance with GDPR obligations.

Liem and EcoMick then procured the services of a company called JaphSoft, a marketing optimization firm that uses machine learning to help companies run successful campaigns. Clients provide JaphSoft with the personal data of individuals they would like to be targeted in each campaign. To ensure protection of its clients' data, JaphSoft implements the technical and organizational measures it deems appropriate. JaphSoft works to continually improve its machine learning models by analyzing the data it receives from its clients to determine the most successful components of a successful campaign. JaphSoft then uses such models in providing services to its client-base. Since the models improve only over a period of time as more information is collected, JaphSoft does not have a deletion process for the data it receives from clients. However, to ensure compliance with data privacy rules, JaphSoft pseudonymizes the personal data by removing identifying information from the contact information. JaphSoft's engineers, however, maintain all contact information in the same database as the identifying information.

Under its agreement with Liem and EcoMick, JaphSoft received access to MarketIQ, which included contact information as well as prior purchase history for such contacts, to create campaigns that would result in the most views of the two companies' websites. A prior Liem customer, Ms. Iman, received a marketing campaign from JaphSoft regarding Liem's as well as EcoMick's latest products. While Ms. Iman recalls checking a box to receive information in the future regarding Liem's products, she has never shopped EcoMick, nor provided her personal data to that company.

Why would the consent provided by Ms. Iman NOT be considered valid in regard to JaphSoft?

- A. She was not told which controller would be processing her personal data.
- B. She only viewed the visual representations of the privacy notice Liem provided.
- C. She did not read the privacy notice stating that her personal data would be shared.
- D. She has never made any purchases from JaphSoft and has no relationship with the company.

Answer: C

NEW QUESTION 58

SCENARIO

Please use the following to answer the next question:

Anna and Frank both work at Granchester University. Anna is a lawyer responsible for data protection, while Frank is a lecturer in the engineering department. The University maintains a number of types of records:

- Student records, including names, student numbers, home addresses, pre-university information, university attendance and performance records, details of special educational needs and financial information.
- Staff records, including autobiographical materials (such as curricula, professional contact files, student evaluations and other relevant teaching files).
- Alumni records, including birthplaces, years of birth, dates of matriculation and conferrals of degrees.

These records are available to former students after registering through Granchester's Alumni portal. Department for Education records, showing how certain demographic groups (such as first-generation students) could be expected, on average, to progress. These records do not contain names or identification numbers.

➤ Under their security policy, the University encrypts all of its personal data records in transit and at rest. In order to improve his teaching, Frank wants to investigate how his engineering students perform in relational to Department for Education expectations. He has attended one of Anna's data protection training courses and knows that he should use no more personal data than necessary to accomplish his goal. He creates a program that will only export some student data: previous schools attended, grades originally obtained, grades currently obtained and first time university attended. He wants to keep the records at the individual student level. Mindful of Anna's training, Frank runs the student numbers through an algorithm to transform them into different reference numbers. He uses the same algorithm on each occasion so that he can update each record over time.

One of Anna's tasks is to complete the record of processing activities, as required by the GDPR. After receiving her email reminder, as required by the GDPR. After receiving her email reminder, Frank informs Anna about his performance database.

Ann explains to Frank that, as well as minimizing personal data, the University has to check that this new use of existing data is permissible. She also suspects that, under the GDPR, a risk analysis may have to be carried out before the data processing can take place. Anna arranges to discuss this further with Frank after she has done some additional research.

Frank wants to be able to work on his analysis in his spare time, so he transfers it to his home laptop (which is not encrypted). Unfortunately, when Frank takes the laptop into the University he loses it on the train. Frank has to see Anna that day to discuss compatible processing. He knows that he needs to report security incidents, so he decides to tell Anna about his lost laptop at the same time.

Anna will find that a risk analysis is NOT necessary in this situation as long as?

- A. The data subjects are no longer current students of Frank's
- B. The processing will not negatively affect the rights of the data subjects
- C. The algorithms that Frank uses for the processing are technologically sound
- D. The data subjects gave their unambiguous consent for the original processing

Answer: D

NEW QUESTION 59

SCENARIO

Please use the following to answer the next question:

Joe is the new privacy manager for Who-R-U, a Canadian business that provides DNA analysis. The company is headquartered in Montreal, and all of its employees are located there. The company offers its services to Canadians only: Its website is in English and French, it accepts only Canadian currency, and it blocks internet traffic from outside of Canada (although this solution doesn't prevent all non-Canadian traffic). It also declines to process orders that request the DNA report to be sent outside of Canada, and returns orders that show a non-Canadian return address.

Bob, the President of Who-R-U, thinks there is a lot of interest for the product in the EU, and the company is exploring a number of plans to expand its customer base.

The first plan, collegially called We-Track-U, will use an app to collect information about its current Canadian customer base. The expansion will allow its Canadian customers to use the app while traveling abroad. He suggests that the company use this app to gather location information. If the plan shows promise, Bob proposes to use push notifications and text messages to encourage existing customers to pre-register for an EU version of the service. Bob calls this work plan, We-Text-U. Once the company has gathered enough pre-registrations, it will develop EU-specific content and services.

Another plan is called Customer for Life. The idea is to offer additional services through the company's app, like storage and sharing of DNA information with other applications and medical providers. The company's contract says that it can keep customer DNA indefinitely, and use it to offer new services and market them to customers. It also says that customers agree not to withdraw direct marketing consent. Paul, the marketing director, suggests that the company should fully exploit these provisions, and that it can work around customers' attempts to withdraw consent because the contract invalidates them.

The final plan is to develop a brand presence in the EU. The company has already begun this process. It is in the process of purchasing the naming rights for a building in Germany, which would come with a few offices that Who-R-U executives can use while traveling internationally. The office doesn't include any technology or infrastructure; rather, it's simply a room with a desk and some chairs.

On a recent trip concerning the naming-rights deal, Bob's laptop is stolen. The laptop held unencrypted DNA reports on 5,000 Who-R-U customers, all of whom are residents of Canada. The reports include customer name, birthdate, ethnicity, racial background, names of relatives, gender, and occasionally health information.

Who-R-U is NOT required to notify the local German DPA about the laptop theft because?

- A. The company isn't a controller established in the Union.
- B. The laptop belonged to a company located in Canada.
- C. The data isn't considered personally identifiable financial information.
- D. There is no evidence that the thieves have accessed the data on the laptop.

Answer: A

NEW QUESTION 61

SCENARIO

Please use the following to answer the next question:

You have just been hired by a toy manufacturer based in Hong Kong. The company sells a broad range of dolls, action figures and plush toys that can be found internationally in a wide variety of retail stores. Although the manufacturer has no offices outside Hong Kong and in fact does not employ any staff outside Hong Kong, it has entered into a number of local distribution contracts. The toys produced by the company can be found in all popular toy stores throughout Europe, the United States and Asia. A large portion of the company's revenue is due to international sales.

The company now wishes to launch a new range of connected toys, ones that can talk and interact with children. The CEO of the company is touting these toys as the next big thing, due to the increased possibilities offered: The figures can answer children's Questions: on various subjects, such as mathematical calculations or the weather. Each figure is equipped with a microphone and speaker and can connect to any smartphone or tablet via Bluetooth. Any mobile device within a 10-meter radius can connect to the toys via Bluetooth as well. The figures can also be associated with other figures (from the same manufacturer) and interact with each other for an enhanced play experience.

When a child asks the toy a QUESTION, the request is sent to the cloud for analysis, and the answer is generated on cloud servers and sent back to the figure.

The answer is given through the figure's integrated

speakers, making it appear as though that the toy is actually responding to the child's QUESTION. The packaging of the toy does not provide technical details on how this works, nor does it mention that this feature requires an internet connection. The necessary data processing for this has been outsourced to a data center located in South Africa. However, your company has not yet revised its consumer-facing privacy policy to indicate this.

In parallel, the company is planning to introduce a new range of game systems through which consumers can play the characters they acquire in the course of playing the game. The system will come bundled with a portal that includes a Near-Field Communications (NFC) reader. This device will read an RFID tag in the action figure, making the figure come to life onscreen. Each character has its own stock features and abilities, but it is also possible to earn additional ones by accomplishing game goals. The only information stored in the tag relates to the figures' abilities. It is easy to switch characters during the game, and it is possible to bring the figure to locations outside of the home and have the character's abilities remain intact.

To ensure GDPR compliance, what should be the company's position on the issue of consent?

- A. The child, as the user of the action figure, can provide consent himself, as long as no information is shared for marketing purposes.
- B. Written authorization attesting to the responsible use of children's data would need to be obtained from the supervisory authority.
- C. Consent for data collection is implied through the parent's purchase of the action figure for the child.
- D. Parental consent for a child's use of the action figures would have to be obtained before any data could be collected.

Answer: D

NEW QUESTION 65

SCENARIO

Please use the following to answer the next question:

Liem, an online retailer known for its environmentally friendly shoes, has recently expanded its presence in Europe. Anxious to achieve market dominance, Liem teamed up with another eco friendly company, EcoMick, which sells accessories like belts and bags. Together the companies drew up a series of marketing campaigns designed to highlight the environmental and economic benefits of their products. After months of planning, Liem and EcoMick entered into a data sharing agreement to use the same marketing database, MarketIQ, to send the campaigns to their respective contacts.

Liem and EcoMick also entered into a data processing agreement with MarketIQ, the terms of which included processing personal data only upon Liem and EcoMick's instructions, and making available to them all information necessary to demonstrate compliance with GDPR obligations.

Liem and EcoMick then procured the services of a company called JaphSoft, a marketing optimization firm that uses machine learning to help companies run successful campaigns. Clients provide JaphSoft with the personal data of individuals they would like to be targeted in each campaign. To ensure protection of its clients' data, JaphSoft implements the technical and organizational measures it deems appropriate. JaphSoft works to continually improve its machine learning models by analyzing the data it receives from its clients to determine the most successful components of a successful campaign. JaphSoft then uses such models in providing services to its client-base. Since the models improve only over a period of time as more information is collected, JaphSoft does not have a deletion process for the data it receives from clients. However, to ensure compliance with data privacy rules, JaphSoft pseudonymizes the personal data by removing identifying information from the contact information. JaphSoft's engineers, however, maintain all contact information in the same database as the identifying information.

Under its agreement with Liem and EcoMick, JaphSoft received access to MarketIQ, which included contact information as well as prior purchase history for such contacts, to create campaigns that would result in the most views of the two companies' websites. A prior Liem customer, Ms. Iman, received a marketing campaign from JaphSoft regarding Liem's as well as EcoMick's latest products. While Ms. Iman recalls checking a box to receive information in the future regarding Liem's products, she has never shopped EcoMick, nor provided her personal data to that company.

Which of the following BEST describes the relationship between Liem, EcoMick and JaphSoft?

- A. Liem is a controller and EcoMick is a processor because Liem provides specific instructions regarding how the marketing campaigns should be rolled out.
- B. EcoMick and JaphSoft are is a controller and Liem is a processor because EcoMick is sharing its marketing data with Liem for contacts in Europe.
- C. JaphSoft is the sole processor because it processes personal data on behalf of its clients.
- D. Liem and EcoMick are joint controllers because they carry out joint marketing activities.

Answer: B

NEW QUESTION 67

Which of the following would MOST likely trigger the extraterritorial effect of the GDPR, as specified by Article 3?

- A. The behavior of suspected terrorists being monitored by EU law enforcement bodies.
- B. Personal data of EU citizens being processed by a controller or processor based outside the EU.
- C. The behavior of EU citizens outside the EU being monitored by non-EU law enforcement bodies.
- D. Personal data of EU residents being processed by a non-EU business that targets EU customers.

Answer: B

NEW QUESTION 71

SCENARIO

Please use the following to answer the next question:

Brady is a computer programmer based in New Zealand who has been running his own business for two years. Brady's business provides a low-cost suite of services to customers throughout the European Economic Area (EEA). The services are targeted towards new and aspiring small business owners. Brady's company, called Brady Box, provides web page design services, a Social Networking Service (SNS) and consulting services that help people manage their own online stores.

Unfortunately, Brady has been receiving some complaints. A customer named Anna recently uploaded her plans for a new product onto Brady Box's chat area, which is open to public viewing. Although she realized her mistake two weeks later and removed the document, Anna is holding Brady Box responsible for not noticing the error through regular monitoring of the website. Brady believes he should not be held liable.

Another customer, Felipe, was alarmed to discover that his personal information was transferred to a third- party contractor called Hermes Designs and worries that sensitive information regarding his business plans may be misused. Brady does not believe he violated European privacy rules. He provides a privacy notice to all of his customers explicitly stating that personal data may be transferred to specific third parties in fulfillment of a requested service. Felipe says he read the privacy notice but that it was long and complicated

Brady continues to insist that Felipe has no need to be concerned, as he can personally vouch for the integrity of Hermes Designs. In fact, Hermes Designs has taken the initiative to create sample customized banner advertisements for customers like Felipe. Brady is happy to provide a link to the example banner ads, now posted on the Hermes Designs webpage. Hermes Designs plans on following up with direct marketing to these customers.

Brady was surprised when another customer, Serge, expressed his dismay that a quotation by him is being used within a graphic collage on Brady Box's home webpage. The quotation is attributed to Serge by first and last name. Brady, however, was not worried about any sort of litigation. He wrote back to Serge to let him know that he found the quotation within Brady Box's Social Networking Service (SNS), as Serge himself had posted the quotation. In his response, Brady did offer to remove the quotation as a courtesy.

Despite some customer complaints, Brady's business is flourishing. He even supplements his income through online behavioral advertising (OBA) via a third-party ad network with whom he has set clearly defined roles. Brady is pleased that, although some customers are not explicitly aware of the OBA, the advertisements contain useful products and services.

Under the General Data Protection Regulation (GDPR), what is the most likely reason Serge may have grounds to object to the use of his quotation?

- A. Because of the misrepresentation of personal data as an endorsement.
- B. Because of the juxtaposition of the quotation with others' quotations.
- C. Because of the use of personal data outside of the social networking service (SNS).
- D. Because of the misapplication of the household exception in relation to a social networking service (SNS).

Answer: D

NEW QUESTION 72

SCENARIO

Please use the following to answer the next question:

ABC Hotel Chain and XYZ Travel Agency are U.S.-based multinational companies. They use an internet-based common platform for collecting and sharing their customer data with each other, in order to integrate their marketing efforts. Additionally, they agree on the data to be stored, how reservations will be booked and confirmed, and who has access to the stored data.

Mike, an EU resident, has booked travel itineraries in the past through XYZ Travel Agency to stay at ABC Hotel Chain's locations. XYZ Travel Agency offers a rewards program that allows customers to sign up to accumulate points that can later be redeemed for free travel. Mike has signed the agreement to be a rewards program member.

Now Mike wants to know what personal information the company holds about him. He sends an email requesting access to his data, in order to exercise what he believes are his data subject rights.

In which of the following situations would ABC Hotel Chain and XYZ Travel Agency NOT have to honor Mike's data access request?

- A. The request is to obtain access and correct inaccurate personal data in his profile.
- B. The request is to obtain access and information about the purpose of processing his personal data.
- C. The request is to obtain access and erasure of his personal data while keeping his rewards membership.
- D. The request is to obtain access and the categories of recipients who have received his personal data to process his rewards membership.

Answer: C

NEW QUESTION 73

SCENARIO

Please use the following to answer the next question:

Liem, an online retailer known for its environmentally friendly shoes, has recently expanded its presence in Europe. Anxious to achieve market dominance, Liem teamed up with another eco friendly company, EcoMick, which sells accessories like belts and bags. Together the companies drew up a series of marketing campaigns designed to highlight the environmental and economic benefits of their products. After months of planning, Liem and EcoMick entered into a data sharing agreement to use the same marketing database, MarketIQ, to send the campaigns to their respective contacts.

Liem and EcoMick also entered into a data processing agreement with MarketIQ, the terms of which included processing personal data only upon Liem and EcoMick's instructions, and making available to them all information necessary to demonstrate compliance with GDPR obligations.

Liem and EcoMick then procured the services of a company called JaphSoft, a marketing optimization firm that uses machine learning to help companies run successful campaigns. Clients provide JaphSoft with the personal data of individuals they would like to be targeted in each campaign. To ensure protection of its clients' data, JaphSoft implements the technical and organizational measures it deems appropriate. JaphSoft works to continually improve its machine learning models by analyzing the data it receives from its clients to determine the most successful components of a successful campaign. JaphSoft then uses such models in providing services to its client-base. Since the models improve only over a period of time as more information is collected, JaphSoft does not have a deletion process for the data it receives from clients. However, to ensure compliance with data privacy rules, JaphSoft pseudonymizes the personal data by removing identifying information from the contact information. JaphSoft's engineers, however, maintain all contact information in the same database as the identifying information.

Under its agreement with Liem and EcoMick, JaphSoft received access to MarketIQ, which included contact information as well as prior purchase history for such contacts, to create campaigns that would result in the most views of the two companies' websites. A prior Liem customer, Ms. Iman, received a marketing campaign from JaphSoft regarding Liem's as well as EcoMick's latest products. While Ms. Iman recalls checking a box to receive information in the future regarding Liem's products, she has never shopped EcoMick, nor provided her personal data to that company.

JaphSoft's use of pseudonymization is NOT in compliance with the CDPR because?

- A. JaphSoft failed to first anonymize the personal data.
- B. JaphSoft pseudonymized all the data instead of deleting what it no longer needed.
- C. JaphSoft was in possession of information that could be used to identify data subjects.
- D. JaphSoft failed to keep personally identifiable information in a separate database.

Answer: B

NEW QUESTION 76

What should a controller do after a data subject opts out of a direct marketing activity?

- A. Without exception, securely delete all personal data relating to the data subject.
- B. Without undue delay, provide information to the data subject on the action that will be taken.
- C. Refrain from processing personal data relating to the data subject for the relevant type of communication.
- D. Take reasonable steps to inform third-party recipients that the data subject's personal data should be deleted and no longer processed.

Answer: C

NEW QUESTION 79

What must a data controller do in order to make personal data pseudonymous?

- A. Separately hold any information that would allow linking the data to the data subject.
- B. Encrypt the data in order to prevent any unauthorized access or modification.
- C. Remove all indirect data identifiers and dispose of them securely.
- D. Use the data only in aggregated form for research purposes.

Answer: A

NEW QUESTION 81

Under the GDPR, where personal data is not obtained directly from the data subject, a controller is exempt from directly providing information about processing to the data subject if?

- A. The data subject already has information regarding how his data will be used
- B. The provision of such information to the data subject would be too problematic
- C. Third-party data would be disclosed by providing such information to the data subject
- D. The processing of the data subject's data is protected by appropriate technical measures

Answer: A

NEW QUESTION 84

Which of the following would require designating a data protection officer?

- A. Processing is carried out by an organization employing 250 persons or more.
- B. Processing is carried out for the purpose of providing for-profit goods or services to individuals in the EU.
- C. The core activities of the controller or processor consist of processing operations of financial information or information relating to children.
- D. The core activities of the controller or processor consist of processing operations that require systematic monitoring of data subjects on a large scale.

Answer: D

NEW QUESTION 86

Which GDPR principle would a Spanish employer most likely depend upon to annually send the personal data of its employees to the national tax authority?

- A. The consent of the employees.
- B. The legal obligation of the employer.
- C. The legitimate interest of the public administration.
- D. The protection of the vital interest of the employees.

Answer: B

NEW QUESTION 88

SCENARIO

Please use the following to answer the next question:

T-Craze, a German-headquartered specialty t-shirt company, was successfully selling to large German metropolitan cities. However, after a recent merger with another German-based company that was selling to a broader European market, T-Craze revamped its marketing efforts to sell to a wider audience. These efforts included a complete redesign of its logo to reflect the recent merger, and improvements to its website meant to capture more information about visitors through the use of cookies.

T-Craze also opened various office locations throughout Europe to help expand its business. While Germany Target, a renowned marketing firm based in the Philippines, to run its latest marketing campaign. After thorough research, Right Target determined that T-Craze is most successful with customers between the ages of 18 and 22. Thus, its first campaign targeted university students in several European capitals, which yielded nearly 40% new customers for T-Craze in one quarter. Right Target also ran subsequent campaigns for T-Craze, though with much less success.

The last two campaigns included a wider demographic group and resulted in countless unsubscribe requests, including a large number in Spain. In fact, the Spanish data protection authority received a complaint from Sofia, a mid-career investment banker. Sofia was upset after receiving a marketing communication even after unsubscribing from such communications from the Right Target on behalf of T-Craze.

What is the best option for the lead regulator when responding to the Spanish supervisory authority's notice that it plans to take action regarding Sofia's complaint?

- A. Accept, because it did not receive any complaints.
- B. Accept, because GDPR permits non-lead authorities to take action for such complaints.
- C. Reject, because Right Target's processing was conducted throughout Europe.
- D. Reject, because GDPR does not allow other supervisory authorities to take action if there is a lead authority.

Answer: D

NEW QUESTION 91

Under Article 21 of the GDPR, a controller must stop profiling when requested by a data subject, unless it can demonstrate compelling legitimate grounds that override the interests of the individual. In the Guidelines on Automated individual decision-making and Profiling, the WP 29 says the controller needs to do all of the following to demonstrate that it has such legitimate grounds EXCEPT?

- A. Carry out an exercise that weighs the interests of the controller and the basis for the data subject's objection.
- B. Consider the impact of the profiling on the data subject's interest, rights and freedoms.
- C. Demonstrate that the profiling is for the purposes of direct marketing.
- D. Consider the importance of the profiling to their particular objective.

Answer: C

NEW QUESTION 96

SCENARIO

Please use the following to answer the next question:

T-Craze, a German-headquartered specialty t-shirt company, was successfully selling to large German metropolitan cities. However, after a recent merger with another German-based company that was selling to a broader European market, T-Craze revamped its marketing efforts to sell to a wider audience. These efforts included a complete redesign of its logo to reflect the recent merger, and improvements to its website meant to capture more information about visitors through the use of cookies.

T-Craze also opened various office locations throughout Europe to help expand its business. While Germany continued to host T-Craze's headquarters and main product-design office, its French affiliate became responsible for all marketing and sales activities. The French affiliate recently procured the services of Right Target, a renowned marketing firm based in the Philippines, to run its latest marketing campaign. After thorough research, Right Target determined that T-Craze is most successful with customers between the ages of 18 and 22. Thus, its first campaign targeted university students in several European capitals, which yielded nearly 40% new customers for T-Craze in one quarter. Right Target also ran subsequent campaigns for T-Craze, though with much less success.

The last two campaigns included a wider demographic group and resulted in countless unsubscribe requests, including a large number in Spain. In fact, the Spanish data protection authority received a complaint from Sofia, a mid-career investment banker. Sofia was upset after receiving a marketing communication even after unsubscribing from such communications from the Right Target on behalf of T-Craze.

Why does the Spanish supervisory authority notify the French supervisory authority when it opens an investigation into T-Craze based on Sofia's complaint?

- A. T-Craze has a French affiliate.
- B. The French affiliate procured the services of Right Target.
- C. T-Craze conducts its marketing and sales activities in France.
- D. The Spanish supervisory authority is providing a courtesy notification not required under the GDPR.

Answer: C

NEW QUESTION 100

Which of the following countries will continue to enjoy adequacy status under the GDPR, pending any future European Commission decision to the contrary?

- A. Greece
- B. Norway
- C. Australia
- D. Switzerland

Answer: D

NEW QUESTION 103

Which GDPR requirement will present the most significant challenges for organizations with Bring Your Own Device (BYOD) programs?

- A. Data subjects must be sufficiently informed of the purposes for which their personal data is processed.
- B. Processing of special categories of personal data on a large scale requires appointing a DPO.
- C. Personal data of data subjects must always be accurate and kept up to date.
- D. Data controllers must be in control of the data they hold at all times.

Answer: D

NEW QUESTION 107

What term BEST describes the European model for data protection?

- A. Sectoral
- B. Self-regulatory
- C. Market-based
- D. Comprehensive

Answer: A

NEW QUESTION 108

What was the aim of the European Data Protection Directive 95/46/EC?

- A. To harmonize the implementation of the European Convention of Human Rights across all member states.
- B. To implement the OECD Guidelines on the Protection of Privacy and trans-border flows of Personal Data.
- C. To completely prevent the transfer of personal data out of the European Union.
- D. To further reconcile the protection of the fundamental rights of individuals with the free flow of data from one member state to another.

Answer: B

NEW QUESTION 113

What permissions are required for a marketer to send an email marketing message to a consumer in the EU?

- A. A prior opt-in consent for consumers unless they are already customers.
- B. A pre-checked box stating that the consumer agrees to receive email marketing.
- C. A notice that the consumer's email address will be used for marketing purposes.
- D. No prior permission required, but an opt-out requirement on all emails sent to consumers.

Answer: A

NEW QUESTION 116

Which of the following is NOT an explicit right granted to data subjects under the GDPR?

- A. The right to request access to the personal data a controller holds about them.
- B. The right to request the deletion of data a controller holds about them.
- C. The right to opt-out of the sale of their personal data to third parties.
- D. The right to request restriction of processing of personal data, under certain scenarios.

Answer: A

NEW QUESTION 120

WP29's "Guidelines on Personal data breach notification under Regulation 2016/679" provides examples of ways to communicate data breaches transparently. Which of the following was listed as a method that would NOT be effective for communicating a breach to data subjects?

- A. A postal notification
- B. A direct electronic message
- C. A notice on a corporate blog
- D. A prominent advertisement in print media

Answer: C

NEW QUESTION 125

Under what circumstances would the GDPR apply to personal data that exists in physical form, such as information contained in notebooks or hard copy files?

- A. Only where the personal data is produced as a physical output of specific automated processing activities, such as printing, labelling, or stamping.
- B. Only where the personal data is to be subjected to specific computerized processing, such as image scanning or optical character recognition.
- C. Only where the personal data is treated by automated means in some way, such as computerized distribution or filing.
- D. Only where the personal data is handled in a sufficiently structured manner so as to form part of a filing system.

Answer: D

NEW QUESTION 127

Which of the following Convention 108+ principles, as amended in 2018, is NOT consistent with a principle found in the GDPR?

- A. The obligation of companies to declare data breaches.
- B. The requirement to demonstrate compliance to a supervisory authority.
- C. The necessity of the bulk collection of personal data by the government.

Answer: B

NEW QUESTION 128

Which of the following is one of the supervisory authority's investigative powers?

- A. To notify the controller or the processor of an alleged infringement of the GDPR.
- B. To require that controllers or processors adopt approved data protection certification mechanisms.
- C. To determine whether a controller or processor has the right to a judicial remedy concerning a compensation decision made against them.
- D. To require data controllers to provide them with written notification of all new processing activities.

Answer: A

NEW QUESTION 132

An unforeseen power outage results in company Z's lack of access to customer data for six hours. According to article 32 of the GDPR, this is considered a breach. Based on the WP 29's February, 2018 guidance, company Z should do which of the following?

- A. Notify affected individuals that their data was unavailable for a period of time.
- B. Document the loss of availability to demonstrate accountability
- C. Notify the supervisory authority about the loss of availability
- D. Conduct a thorough audit of all security systems

Answer: C

NEW QUESTION 134

According to the GDPR, how is pseudonymous personal data defined?

- A. Data that can no longer be attributed to a specific data subject without the use of additional information kept separately.
- B. Data that can no longer be attributed to a specific data subject, with no possibility of re-identifying the data.
- C. Data that has been rendered anonymous in such a manner that the data subject is no longer identifiable.
- D. Data that has been encrypted or is subject to other technical safeguards.

Answer: A

NEW QUESTION 135

Under the Data Protection Law Enforcement Directive of the EU, a government can carry out covert investigations involving personal data, as long it is set forth by law and constitutes a measure that is both necessary and what?

- A. Prudent.
- B. Important.
- C. Proportionate.
- D. DPA-approved.

Answer: C

NEW QUESTION 139

SCENARIO

Please use the following to answer the next question:

ABC Hotel Chain and XYZ Travel Agency are U.S.-based multinational companies. They use an internet-based common platform for collecting and sharing their customer data with each other, in order to integrate their marketing efforts. Additionally, they agree on the data to be stored, how reservations will be booked and confirmed, and who has access to the stored data. Mike, an EU resident, has booked travel itineraries in the past through XYZ Travel Agency to stay at ABC Hotel Chain's locations. XYZ Travel Agency offers a

rewards program that allows customers to sign up to accumulate points that can later be redeemed for free travel. Mike has signed the agreement to be a rewards program member.

Now Mike wants to know what personal information the company holds about him. He sends an email requesting access to his data, in order to exercise what he believes are his data subject rights.

What is the time period in which Mike should receive a response to his request?

- A. Not more than one month of receipt of Mike's request.
- B. Not more than two months after verifying Mike's identity.
- C. When all the information about Mike has been collected.
- D. Not more than thirty days after submission of Mike's request.

Answer: D

NEW QUESTION 144

Under Article 9 of the GDPR, which of the following categories of data is NOT expressly prohibited from data processing?

- A. Personal data revealing ethnic origin.
- B. Personal data revealing genetic data.
- C. Personal data revealing financial data.
- D. Personal data revealing trade union membership.

Answer: C

NEW QUESTION 147

Which sentence BEST summarizes the concepts of "fairness," "lawfulness" and "transparency", as expressly required by Article 5 of the GDPR?

- A. Fairness and transparency refer to the communication of key information before collecting data; lawfulness refers to compliance with government regulations.
- B. Fairness refers to limiting the amount of data collected from individuals; lawfulness refers to the approval of company guidelines by the state; transparency solely relates to communication of key information before collecting data.
- C. Fairness refers to the security of personal data; lawfulness and transparency refers to the analysis of ordinances to ensure they are uniformly enforced.
- D. Fairness refers to the collection of data from diverse subjects; lawfulness refers to the need for legal rules to be uniform; transparency refers to giving individuals access to their data.

Answer: A

NEW QUESTION 152

SCENARIO

Please use the following to answer the next question:

The fitness company Vigotron has recently developed a new app called M-Health, which it wants to market on its website as a free download. Vigotron's marketing manager asks his assistant Emily to create a webpage that describes the app and specifies the terms of use. Emily, who is new at Vigotron, is excited about this task. At her previous job she took a data protection class, and though the details are a little hazy, she recognizes that Vigotron is going to need to obtain user consent for use of the app in some cases. Emily sketches out the following draft, trying to cover as much as possible before sending it to Vigotron's legal department.

Registration Form

Vigotron's new M-Health app makes it easy for you to monitor a variety of health-related activities, including diet, exercise, and sleep patterns. M-Health relies on your smartphone settings (along with other third-party apps you may already have) to collect data about all of these important lifestyle elements, and provide the information necessary for you to enrich your quality of life. (Please click here to read a full description of the services that M-Health provides.)

Vigotron values your privacy. The M-Health app allows you to decide which information is stored in it, and which apps can access your data. When your device is locked with a passcode, all of your health and fitness data is encrypted with your passcode. You can back up data stored in the Health app to Vigotron's cloud provider, Stratculous. (Read more about Stratculous here.)

Vigotron will never trade, rent or sell personal information gathered from the M-Health app. Furthermore, we will not provide a customer's name, email address or any other information gathered from the app to any third-party without a customer's consent, unless ordered by a court, directed by a subpoena, or to enforce the manufacturer's legal rights or protect its business or property.

We are happy to offer the M-Health app free of charge. If you want to download and use it, we ask that you first complete this registration form. (Please note that use of the M-Health app is restricted to adults aged 16 or older, unless parental consent has been given to minors intending to use it.)

- > First name:
- > Surname:
- > Year of birth:
- > Email:
- > Physical Address (optional*):
- > Health status:

*If you are interested in receiving newsletters about our products and services that we think may be of interest to you, please include your physical address. If you decide later that you do not wish to receive these newsletters, you can unsubscribe by sending an email to unsubscribe@vigotron.com or send a letter with your request to the address listed at the bottom of this page.

Terms and Conditions 1.Jurisdiction. [...] 2.Applicable law. [...] 3.Limitation of liability. [...] Consent

By completing this registration form, you attest that you are at least 16 years of age, and that you consent to the processing of your personal data by Vigotron for the purpose of using the M-Health app. Although you are entitled to opt out of any advertising or marketing, you agree that Vigotron may contact you or provide you with any required notices, agreements, or other information concerning the services by email or other electronic means. You also agree that the Company may send automated emails with alerts regarding any problems with the M-Health app that may affect your well being.

Emily sends the draft to Sam for review. Which of the following is Sam most likely to point out as the biggest problem with Emily's consent provision?

- A. It is not legal to include fields requiring information regarding health status without consent.
- B. Processing health data requires explicit consent, but the form does not ask for explicit consent.
- C. Direct marketing requires explicit consent, whereas the registration form only provides for a right to object
- D. The provision of the fitness app should be made conditional on the consent to the data processing for direct marketing.

Answer: C

NEW QUESTION 157

According to the GDPR, when should the processing of photographs be considered processing of special categories of personal data?

- A. When processed with the intent to publish information regarding a natural person on publicly accessible media.
- B. When processed with the intent to proceed to scientific or historical research projects.
- C. When processed with the intent to uniquely identify or authenticate a natural person.
- D. When processed with the intent to comply with a law.

Answer: C
